PROFESSIONAL EXPERIENCE

Accenture PVT LTD, HYD, INDIA.

AEM Developer.

OCT 2023 – Current

- Developed and managed digital content using Adobe Experience Manager (AEM), ensuring seamless delivery across web platforms.
- Built and customized AEM components, templates, workflows, and dialogs (Touch UI & Classic UI) based on project requirements.
- Integrated REST APIs and implemented resource-type servlets for data handling and form submissions.

- Created responsive and SEO-optimized web pages using HTL, HTML, CSS, JavaScript, and React.js.
- Collaborated with UI/UX, QA, and marketing teams to deliver user-friendly, high-performance page experiences.
- Managed AEM DAM assets, Content Fragments, and Experience Fragments for efficient content delivery.
- Implemented multi-site management features including Live Copies, Blueprints, and Rollouts for global content distribution.
- Performed sanity testing and authored manual test cases to validate functionality after releases.
- Logged and tracked defects in JIRA, collaborating closely with developers for timely resolution.
- Worked in Agile development cycles, actively participating in daily scrums and sprint planning.

Key Achievements

- Successfully delivered multiple global website rollouts across 30+ markets, ensuring accurate localization and on-time releases.
- Improved content publishing efficiency by 30% through workflow optimization and enhanced component functionality.
- Resolved 95% of CMS-related authoring issues within SLA, improving content team productivity and system stability.
- Designed and deployed reusable AEM components reducing development effort on new pages by 40%.
